Contact Information & Partnerships

AVJ: Powering the Balkan Energy Future

01

Our Mission

A premier regional energy development platform providing sustainable infrastructure across the Balkan region.

> ENERGY PLATFORM

03

Capabilities

Full integration from initial concept to grid connection and long-term facility operation management.

> GRID CONNECTION > ASSET OPERATION

02

Establishment

Since our establishment in 2017 in Serbia, we have driven growth and innovation in regional power systems.

> FOUNDED 2017

— AVJ CONSTRUCTIONS & DEVELOPMENT

The Growth Journey: Strategic Evolution

2017: Foundation and inception in Serbia.

2018: Formation of key strategic partnerships.

2019: Regional expansion and first 12 MW development.

2024-2026: Consolidation into a fully integrated platform.

2017 - 2026 Roadmap

Energy Platform

Global Standards

Integrated Capabilities: Value Chain

Development

Focuses on Solar PV, BESS, and infrastructure ensuring grid connection.

Distribution

Authorized supply of high-end electrical equipment via global partners.

Consulting & PM

Financial solutions and owner's engineering for optimized delivery.

Operational Services

Management and maintenance ensuring long-term project viability.

Solar

PV Systems
CLEAN GENERATION

BESS

STORAGE TECH

SPECIALIZED DEVELOPMENT

PV Solar & Battery Storage

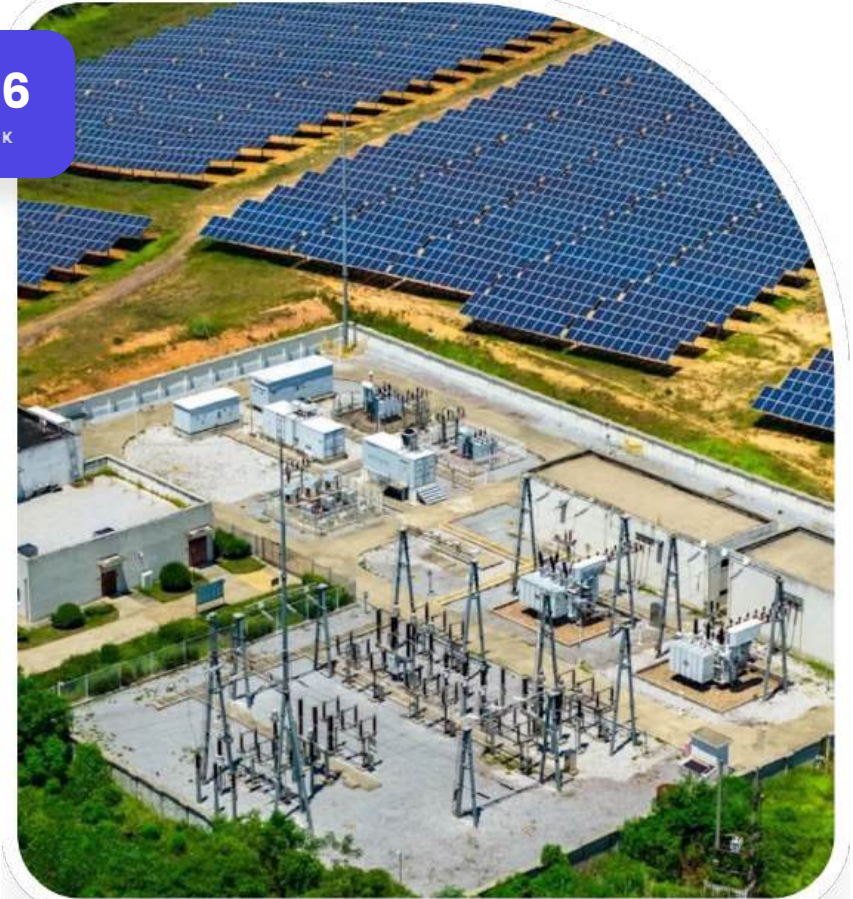

AVJ leads in utility-scale Solar PV and advanced BESS development, ensuring design excellence for renewable assets across global markets.

 **Utility-Scale Solar PV Infrastructure**

 **Advanced BESS Grid Integration**

2026

OUTLOOK

CORPORATE PORTFOLIO

Strategic Distribution & Equipment Portfolio

Official partner for high-efficiency **TopCon panels**. Supply of premium inverters and advanced electrical components.

- ✓ TCL, SUNGROW, and KACO technology distribution
- ✓ ABB & SCHNEIDER grid infrastructure partnerships

Tier 1

EQUIPMENT STANDARDS

Global Supply

Consulting & Project Management

Financial & Engineering INVESTMENT SOLUTIONS

Comprehensive financial modeling and Owner's Engineering services to maximize asset value.

Operational Delivery PROJECT MANAGEMENT

Rigorous project management from inception to full operation, ensuring technical excellence.

Strategic Advisory REGIONAL ENERGY MARKETS

Navigating complex regulatory and financial landscapes across the Balkan energy sector.

Group Ecosystem

Led by Vasileios Antonopoulos, our parent entity steers a powerful network of specialized subsidiaries across the regional energy landscape.

Advanced Power Solutions

Integrating INNOVAGRID Beograd and Vasalino Energy for modern grid infrastructure.

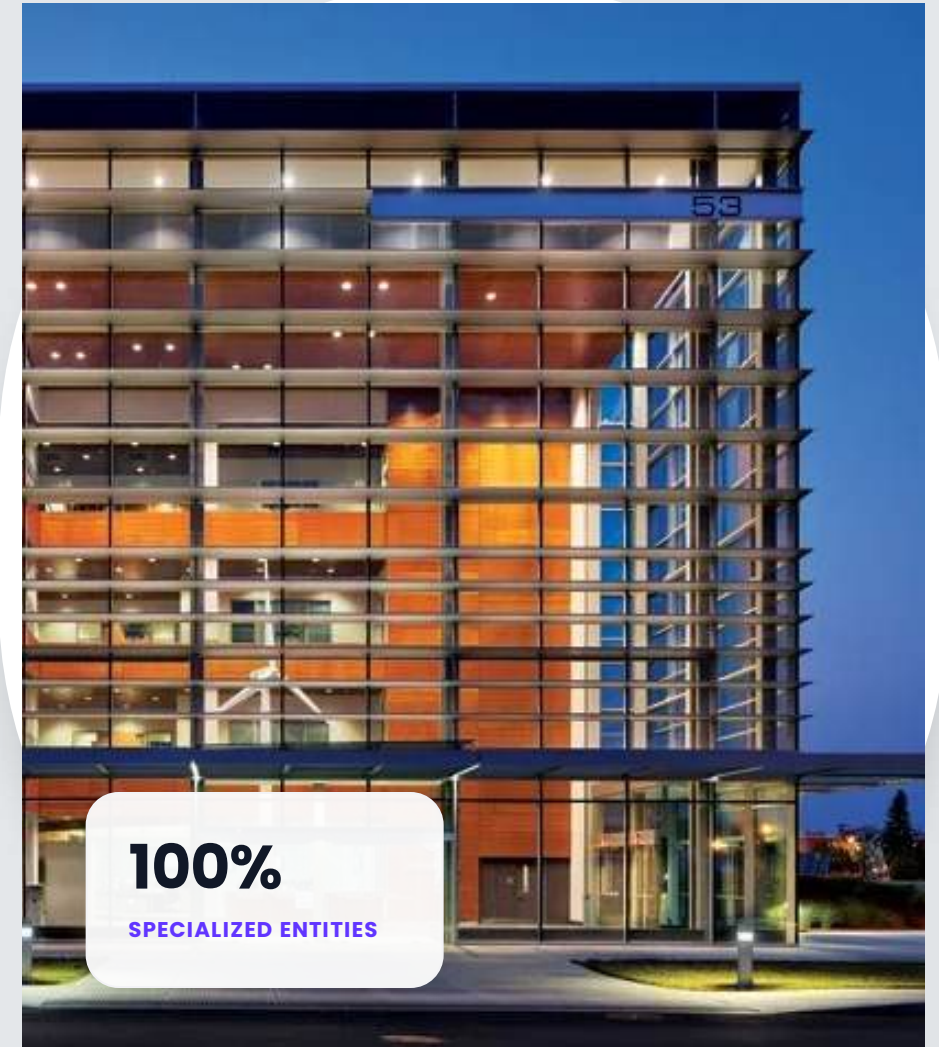

Renewable Innovation

Nexray Energy and Raytech Energy focusing on PV and BESS technology advancements.

Strategic Management

LL Global Holdings, Capital Energy, and ADD Global ensuring project financial stability.

CORPORATE OVERVIEW

Global Presence: Regional Heart

01

Core Operations

Centers in Serbia and Greece for primary infrastructure development.

02

Emerging Markets

Expansion initiatives within North Macedonia and Morocco regions.

03

International Hubs

Strategic corporate offices established in the UAE and the UK.

04

Global Reach

Integrated network facilitating large-scale energy initiatives.

Strategic positioning for trans-continental energy projects.

MARKET POSITION & PIPELINE

Strategic Portfolio

TOTAL PORTFOLIO INFLUENCE

Over 1.1 GW Managed Energy Projects

Solar PV Portfolio

285 MWp Solar PV portfolio established across Serbia and Greece, driving regional decarbonization.

BESS Development

Managing 2 x 25 MW Battery Energy Storage Systems in Greece and 250 MW EPC management in Serbia.

Regional Management

300 MW Project Management across Balkans and North Macedonia with 245 MWp Supervision services.

Future Business Model: 2026–2030 Roadmap

01

Service Scaling

Scaling high-value development and expanding global networks to maximize reach.

- › VALUE DEVELOPMENT
- › NETWORK EXPANSION

02

Energy Strategy

Advanced energy transition consulting for sustainable infrastructure shifts.

- › TRANSITION ADVISORY
- › SUSTAINABILITY FOCUS

03

Licensing Model

Strengthening partnerships and licensing to secure long-term operational excellence.

- › PARTNER SYNERGY
- › OFFICIAL LICENSING

— AVJ CONSTRUCTIONS & DEVELOPMENT

Strategic Vision: Stability & Synergy

We ensure long-term stability and operational viability through integrated asset management, prioritizing building aggregator and energy balancing capabilities.

Net-Zero Transition

Investor Stability

Energy Balancing

Contact Information & Partnership Inquiries

Global Headquarters

Belgrade HQ with regional offices in Dubai, Athens, and London for global reach.

Digital Channels

Visit www.avjconstructions.com or email info@avjconstructions.com directly.

Strategic Relations

Direct communication for strategic investors and global infrastructure partners.

Energy Future

Together building a sustainable and integrated energy future through expert synergy.
